

# PBR Panel

## Description:

The PBR Panel is a factory formed corrugated commercial-industrial metal roof and wall panel that provides a traditional metal panel appearance. PBR Panel has 36" [914 mm] coverage, with trapezoidal ribs at 12" [305 mm] o/c. The PBR roofing panel is mechanically fastened with exposed fasteners and can be installed in a non-sequential pattern.

## Materials & Thickness:

- ▶ Base Material: Galvanized or Galvalume 80,000 psi
- ▶ Optional Material: Aluminum .032" to .040", Natural Weathering Steel, Copper 16 & 20oz
- ▶ Finishes: Symphony™ Silicone Polyester and Kynar500® (PVDF), and Acrylic Coated Galvalume
- ▶ Gauges 29, 24, 22 (Standard) 29, 24, 22 (Optional)

## Accessories:

We offer a full line of accessories that compliment this profile including:

1. Sealants
2. Fasteners
